About the Giving Machine Initiative

How It Works

100% of donations go to domestic and international charities that support those in need. The Church of Jesus Christ of Latter-day Saints covers operating costs.

Our Impact

The Light the World Giving Machine Initiative began in North America in 2017 as a new way to make giving accessible to everyone. Since then, it has expanded around the world, with Giving Machine kiosks now installed in more than 100 cities. To date, more than 3.85 million people have visited Giving Machine kiosks, donating approximately US$70 million worth of goods and services—equivalent to ¥11 billion at May 2026 exchange rates.
